OUR BUILDING

One block from campus, UMass Hillel is a warm and vibrant hub of activity. On any given day you might find multiple groups of students schmoozing, studying, having meetings, leading services, baking challah, preparing for a large communal Shabbat meal, or planning an event. You will also see students hanging out and having fun at parties, hosting ping-pong tournaments, enjoying a comedy night, or outside tending the gardens.

If you are looking for a real home-away-from-home, the upper level of the building provides dormitory style housing for 26 students and a live-in resident advisor. You will have access to a kitchenette, laundry facilities, high-speed internet, and parking.

Programs can spread throughout campus and the community to bring Jewish programming to students wherever they may be!
